

Special detergent - removes organic contaminants in the scope of horticulture and ornamental plants

Clean green soiled areas specific in two steps thoroughly!

- 1.) MENNO TER forte 1 % foaming and let dry. 2 days later:
- 2.) VENNO HORTISPET CLEAN Plus 2 % foaming and wash off.

With a little more effort achieve the best possible result!

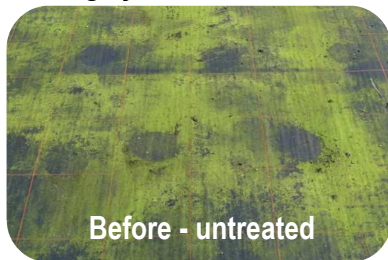

VENNO HORTISEPT® CLEAN Plus

Alkaline detergent (water-soluble concentrate) strongly foaming, for professional use in crop production, vegetable and ornamental crops. Cleaning dirt load and residues from transport containers such as pots, trays, pallets, boxes, crates and areas such as irrigation mats, roller tables, greenhouses, etc. Also for use in crate washing machines.

Application: 1% up to 3%, e.g. 1 to. 3 l in 99 resp. 97 l water, stir during the addition.

Indication / strongly foaming: Apply depending on the pollution of the surface to be cleaned (plastic, wood, glass, concrete, metal, etc.) in the aqueous application concentration preferably with up to 40 ° C warm water. Surface sufficiently wet, preferably to be applied as foam (with application technique skumix®) only short soak up period for 1 to 5 minutes, without drying off and rinse with warm water and high pressure. Before treatment, test product tolerance / resistance of the material surface to be cleaned!

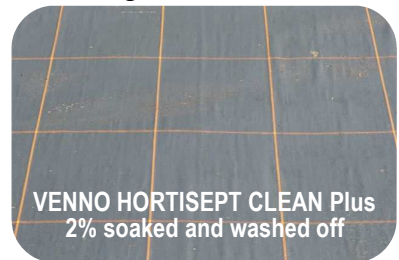

Matting systems / Woven materials - Algae control with subsequent cleaning of

Before - untreated
